

# Roja Bella

*50% Tempranillo 50% Garnacha*

*This red wine is a perfect balance on Tempranillo and Garnacha. It is an excellent value with flavors of blackberry and cassis that are long on the finish.*

Tempranillo: *The finesse and highly aromatic qualities of this red grape make it the star of the Spanish varieties. The wines made of Tempranillo are wines with density in color, round and with body.*

Garnacha: *A high yield grape indigenous to Spain that produces vigorous wines. It is the red grape most widely cultivated in Spain. The tannins from the garnacha grapes are very soft. The wines made of Garnacha, are wines full of life, very fruity and have a lot of body, but due to the soft tannins, just perfect for young wines such as Roja Bella.*
